Create New Services Application

This topic will be used when an ATP wants to have additional services add to a branch of their ATP.

If multiple branches need new services, a new Case will be required for each branch.

Notifications

As cases are worked by TPA, most notifications about the case will be sent through the [Internal Office Notifications](#) system. Other notifications may still be completed through emails.

Required Documentation

- Business Plan
- Training Plan

Additional documentation may be required as the Case is processed.
