Basic Troubleshooting for AZ MVD Now

Your customer is calling because they cannot access their account on AZ MVD Now. This topic will walk you through basic troubleshooting that will help the customer gain access to their account.

Here is a printable Quick Reference Guide for:

- [Contact Center](#)
- [Field or ATP offices](#)

Email Addresses Associated with Customers

Before you begin the troubleshooting steps, it is important to understand that there are three areas in MAX where you can find an email address for a customer. Each of these email addresses can be different, has a different purpose, and can be managed in different areas throughout AZ MVD Now.

Never provide an email address on record to the customer.

Email addresses **must always be provided by the customer** and then you may visually compare with what is on record.

- ▶ **Contact Email Address**
- ▶ **Fund Account Email Address**
- ▶ **AZ MVD Now Email Address**

Troubleshooting

The following steps are intended to be done in order to identify and correct issues the customer may be experiencing.

There may be instances where the steps may be done out of order, such as the customer already knows they need their phone number updated, etc. However, **Step 10** and **Step 11** have **prerequisites that must be completed first**.

- ▶ **Step One: Verify the Customer**
- ▶ **Step Two: How is the customer signing in: Google or Email?**

- ▶ **Step Three: Does the customer have access to the email address and phone number associated with their AZ MVD Now Account?**
- ▶ **Step Four: Is the customer using a mobile device or computer?**
- ▶ **Step Five: What browser is the customer using (Google Chrome, Safari, DuckDuckGo, etc.)?**
- ▶ **Step Six: How strong is the customer's Wi-Fi or Mobile Data signal?**
- ▶ **Step Seven: Is the customer partially signed in?**
- ▶ **Step Eight: Clear Cache and Browsing History or Open Incognito Window**
- ▶ **Step Nine: complete On Demand Authentication**

Per OIG, over the phone, **Step 9 must** be completed before we can unlink a customer's account.

▶ **Step Ten: Unlink AZ MVD Now Account**

Per OIG, over the phone, **Step 9 must** be completed before we can unlink or link a customer's account and we must only link an email address that we previously unlinked.

- ▶ **Step Eleven: Link AZ MVD Now Account**
- ▶ **Step Twelve: Service Portal Ticket**
