Customers Signing Up for AZ MVD Now - Individual Login

For a customer to set up their AZ MVD Now login, they must meet the [Customer Account Requirements \(Level 3 Customer\)](#), and provide a Social Security Number (SSN) as identification. AZ MVD Now will attempt to validate against an existing Customer Record, but new customers who have never done business with MVD before will still be able to create an account.

Even if a customer is a Level 3 customer without an SSN, they must have an SSN to activate their AZ MVD Now login.

If an existing customer who has not previously provided a Social Security Number attempts to sign up through AZ MVD Now, they will be prompted to add their Social Security Number before continuing.

- ▶ **Signing Up (Activating) for a New AZ MVD Now Login (Customer Point of View)**
