

You are here: Customer Portal > Link Customer to AZ MVD Now User

Link Customer to AZ MVD Now User

This feature allows a CSR to link a customer's AZ MVD Now account access to the email they have previously registered. Typically this happens when a customer starts the AZ MVD Now activation process, completes the steps to add their email and create a password, but then has issues with authenticating their account with their Driver License (or other options.)

This option is only available if the customer does not have their AZ MVD Now activated. If there account is activated you will see these option at the bottom of their AZ MVD Now page of their Customer Record:

AZ MVD Now Account Options
AZ MVD Now Email Address:
 [Exception Log](#)
 [Disable AZ MVD Now Access.](#)
 [Reset AZ MVD Now Sign-in Verification Phone Number.](#)
 [Change AZ MVD Now Email Address.](#)
 [Unlink all customer and associated accounts from AZ MVD Now user.](#)
 [Restrict Mobile Identification for AZ MVD Now.](#)
