Managing AZ MVD Now Logins for Organizations

This function in MAX is limited to the **Account Support Unit** (for all Organizations) or the **Dealer Licensing Unit** (for Dealerships).

If Organizations inquire about establishing their Organization Customer Accounts through AZ MVD Now, CSRs should direct the customer to the appropriate unit:

- Dealers should be directed to the Dealer Licensing Unit
- All other organizations should be directed to the Account Support Unit

The [Central Issuance Mailing Dashboard](#) > [Processing Dates tab](#) provides the current date applications are being worked.

Organizations (including trusts, governments, non-profit organizations, and sole proprietorships) must meet [Customer Account Requirements \(Level 3 Customer\)](#) to have AZ MVD Now access to their account. Organizations must also complete an [AZ MVD Now Organization Administrator Application, form #15-0706](#) to identify the Organization Administrator who will manage access to the Organization Account through AZ MVD Now.

There are actually two different forms, depending on the type of Organization requesting access to their account online:

- [AZ MVD Now Dealership Administrator Application, form #15-0707](#) (managed by the Dealer Licensing Unit, aacc@azdot.gov)
- [AZ MVD Now Organization Administrator Application, form #15-0706](#) (managed by the Account Support Unit, accountsupport@azdot.gov) - please note: This is an application for an account, not a guarantee of account access. After proper due diligence, the Organization Customer Account will be created by the Account Support Unit, and the Organization Administrator will be notified of their access

This information is provided from the Activate as an Organization option from the Sign In & Activation Options drop down menu in AZ MVD Now.

Activate as an Organization

Vehicle Dealers

To activate AZ MVD Now as a vehicle dealer, complete [Form 15-0707](#) and send to the Dealer Licensing Unit at aacc@azdot.gov.

Other Organizations and Businesses

To activate AZ MVD Now as an organization (business, trust, non-profit or government entity), complete the [AZ MVD Now Organization Administration Application, Form 15-0706](#) and send to accountsupport@azdot.gov with the required supporting documentation.

A few important notes on AZ MVD Now Organizational Accounts:

- The email address you provide on your application must not be used on any other AZ MVD Now account. Every AZ MVD Now account, organizational and personal, must have a unique email address.
- Only send initial emails to accountsupport@azdot.gov. (when the email address is selected, the users email application will start a new email) Missing information will delay the set up of your account.

To create a login (username and password) for AZ MVD Now access to the Organization's Customer Account, Representatives must be added to the Organization Customer Record in MAX.

If the Representative is set up as an Organization Administrator, that individual is granted access to Manage Representatives directly in AZ MVD Now for the Organization.

Adding or editing Representatives does not create customer records for those individuals, and those individuals are not subject to the same [Customer Account Requirements \(Level 3 Customer\)](#).

In many cases, you will not be able to add Representatives until the appropriate Characteristic has been added. See the [Characteristics](#) for more information about Characteristics for Organization Records.

Updating an Account Administrator

If the organization needs to update the account administrator, they must go through the process for application again so that Account Support can make the necessary changes.
