

You are here: *Finance & Cash Management > Receipt Search*

Receipt Search

This function allows you to download a specific payment receipt, and requires you to already have the Receipt Number.

You see a payment on a report that you want to research in more detail. You use the Receipt Number (Receipt ID) from the report in the **Receipt Search** function to download a copy of that payment receipt.

1. From the Admin menu, *click* **Receipt Search**.

2. *Type or paste* the **Receipt ID**.
3. *Click* **Download**.

4. The downloaded receipt now appears in your Downloads folder on your local machine.
