Service History Lookup

Some MVD units may need to look up a completed service by the Business Transaction Number (aka: Service ID) rather than by the customer's Service History.

1. From the Admin Menu *Select **Service History Lookup***.

2. *Type the **Business Transaction Number** (aka: Service ID) related to the service you'd like to view.*
3. *Click **Find**.*

A screenshot of a web form titled 'Service History Audit'. Below the title is a section labeled 'Lookup Service History Audit'. Inside this section, there is a text input field labeled 'Business Transaction Number *' with the value '6255745' entered. To the right of the input field is a blue button labeled 'Find'. Both the input field and the 'Find' button are marked with orange circles containing the numbers '2' and '3' respectively. At the bottom right of the form, there is a 'Back' button.

4. The Service Artifacts for the service you requested will display. From here you can *download and view* the **Service Artifacts** and documents that were added during the service.

Service Artifacts				×
Service Details (Issue Permit)				
Service Artifact	Service	Customer	Download	
Payment Receipt	Issue Permit	Marty Lee Miller		
Temp License Plate Temp Registration	Issue Permit	Marty Lee Miller		4
