

Cash Balancing Scenarios

Important: It is NOT possible to change a payment type from or to Customer Account. Be mindful to get it right the first time!

For integrated Point of Sale Devices balancing (Credit Cards), you will NOT be able to update the **Point of Sale Card Amount** after the payment has completed. Depending on the scenario you may be able to add an additional Point of Sale payment, but once that payment is processed it cannot be changed.

- ▶ **I Put Cash in But it Should Have Been Credit Card or Check (or Vice Versa)**
- ▶ **I Put Credit Card or Check in But it Should Have Been Customer Account**
- ▶ **I Put Cash in MAX, But it Should Have Been Customer Account**
- ▶ **I Put Credit Card in, But it Should Have Been PrePaid Voucher**
- ▶ **I Put in PrePaid Voucher, But it Should Have Been Some Other Payment Method**
- ▶ **I Charged the Credit Card Too Much, So My Credit Card Totals Don't Match MAX**
- ▶ **I Charged Too Little and the Customer Owes Money**
- ▶ **Customer Want to Change From Cash to Other Form of Payment AFTER Service has Been Finalized**
