

You are here: About Services in MAX > One Time Mailing Address

One Time Mailing Address

Adding a one time mailing address enables you to provide an address where a document should be mailed but does not change the address on the customer's record. The one time mailing address will only be used to mail the document to the customer and will not be saved to the customer record. It will be saved to the Service History for that service.

The One-Time Mailing Address (if any) is the first address that MAX checks when mailing items to a customer. If there is ever any doubt or concern about which address the artifacts may be mailed to (Domicile, Mailing, or Residential/Commercial), use the One-Time Mailing Address to ensure the correct location for receipt of the items. See [Central Issuance and Mailing](#) for more details.
