Taxes & Fees

Most Services in MAX include a Taxes and Fees screen prior to checkout, including no fee services such as Placards. MAX will analyze all data provided within the Service and display the appropriate taxes and fees based on business rules.

On occasion, you may need to add fees or adjust (waive) fees, based on the specific situation.

Do NOT add fees that don't apply to the specific service. Adding a fee to a service does not produce the necessary artifacts or updating of customer or vehicle data.

If another service applies, it is imperative that you complete the other service in order to charge the appropriate fees.

Taxes and Fees for Title & Registration Services

The Taxes and Fees page will display the vehicle's VIN, year, and make when there is only one vehicle in the service.
