Work In Progress

What is Work in Progress (WIP)?

WIP (also known as a **Service Hold**) is a feature in MAX that allows you to pause processing a service for a customer, so they can return to complete the service at a later time (for example, when a customer needs leave to retrieve additional documentation), or in a different location.

- ▶ **Putting a Service in WIP**
- ▶ **Locating and beginning a Service in WIP**
- ▶ **Removing a Service from WIP**
- ▶ **WIPs Older than One Year**
