Trusted Organization

Certain organizations that do business with MVD need to have the ability to fund their accounts and/or request disbursements that are beyond the pre-set limits. Once an organization is determined to be a Trusted Organization, the Trusted Organization Characteristic will be added to their customer record. That characteristic allows the organization:

- No limit on the amount or frequency of funds added to their account
- No limit on the amount or frequency of the disbursement requests
- The ability to request Digital Disbursements from their Organization Customer Account

Only the Director of MVD is authorized to approve the Trusted Organization Characteristic.

The Trusted Organization Characteristic can only be added to Organization Records in MAX by the Account Support Unit (all organizations) and the Dealer Licensing Unit (Dealers only).

View [Characteristics](#) for details on how a characteristic is added.
