AAMVA Driver Messages and Codes

When making a PDPS or SPEXS inquiry, AAMVA returns results in the **AAMVA Messages** area that are not always easy to interpret. They are found by *clicking Show Message* and *open* the various **drop down icons**.

In this example you will see the *stateOfRecordDriverName* section opened to reveal additional information about the driver in the response provided. Some details, such as name, DOB and height are relatively easy to read. Others, such as *driverCurrentSex* are in code. Below you will find a chart of the most frequently used AAMVA Codes.

AAMVA Messages

- PDPS : PDPS Interactive Inquiry **Complete**: 08/24/2020 11:22 AM [AAMVA Transaction Id 10052971]
 - InteractiveInquiryStatusResponse: [AAMVA Message Id 19995619] [Hide Message](#)
