Renewal Commercial Learner Permit (CLP) and Commercial Driver License (CDL)

A Credential Renewal service is provided for customers whose Commercial Learner Permit (CLP) or Commercial Driver License (CDL) have either expired or will expire.

Commercial Learners Permit (CLP)

A CLP is valid up to one year. If a CLP is renewed, the applicant must retake all segments of the knowledge tests.

- For the CDL's Vehicle Inspection and Basic Control Skills Test, passing scores are valid only for the period remaining on the CLP initially issued to the applicant

Commercial Driver License (CDL)

Arizona issues a eight year CDL, except in certain cases (i.e., Limited Term (Permanent Residents) or Non-Domicile (Temporary INS) and Sex Offender customers). A CDL holder may renew up to six months prior to the expiration of the CDL.

The eight year CDL includes CDL holders over the age of 65.

Commercial Driver License (CDL) applicants or applicants whose CDL has been expired or withdrawn for more than one year shall re-take all applicable tests.

CDL holders with Hazmat endorsement need a valid HME Security Threat Assessment (STA) to renew the HME. View the [Hazmat Security Threat Assessment \(STA\)](#) topic for more information on Hazmat information.

At the discretion of the Division, an applicant may be required to retest for a Class M, A, B, or C CDL or CLP.

Customers that have both an Arizona Travel and Non Travel credential are required to have both updated at the time of renewal. This ensures the issue dates and photos are the same on both credentials. Customers are required to pay for all applicable fees associated with the issuance of both credentials.

Credential Renewal Requirements

Requirements for a license renewal may include:

- Either a [Travel License/Identification Application, form #40-5122](#) or [Travel License/Identification Application \(Spanish\), form #40-5122s](#)
- The Social Security Number (SSN) is required
- The customer will retain the same class and endorsements, and is issued a new expiration date

- Endorsements cannot be added or removed during a renewal service
- The applicant must a Primary document (proof of U.S. citizenship) to issue an original, renewal, or upgraded CLP/CDL (does not apply to foreign applicants):
 - The CSR may use the scanned artifact (Primary document) on file (MAX/Documents, or OnBase)
 - If the Primary document is on file, the document does not need to be physically provided
 - U.S. passports on file that are currently expired, but were not expired at the time of original issuance, may only be used for non-TID credentials and for the renewal of a non-TID CDL
 - Expired U.S. passports cannot be used for the issuance of an original CDL or for upgrades
 - Passports on file that are currently not expired, may be used to issue TID credentials, not including CDLs
 - All source documents must be scanned or uploaded to the new credential issuance service, view [Document Management](#) > [Adding Documents](#) section for information on how to add documents to a service
 - If foreign customer, must provide original Authorize Presence documentation. **Pulling documents from MAX and OnBase is not acceptable**
- Proof of address is required, if the customer's current credential does not reflect the customer's current physical address
- If CDL has been expired or withdrawn for more than one year shall re-take all applicable tests
- No Withdrawal actions on the record

A CDL renewal can be completed within six months prior to expiration.

If a customer establishes their identity for an original credential, of any type, with a valid passport, that same U.S. passport (valid or expired) can be used to renew or obtain an original non-TID CDL.

If a customer uses a valid U.S. passport to establish authorized presence, the CSR may use the scanned artifact on file to issue an original, renewal, or upgraded non-TID CLP/CDL.

Renewals for Limited Term and Non-Domicile CDLs

Customers with a Limited Term and Non-Domicile Authorized Presence are required to request a renewal in-person at a MVD or ATP office.

Documents are required to be presented in person for every Non-Domicile CDL and CLP issuance (including duplicates).

Any new SAVE results while processing the renewal credential will need to be scanned into the customer's documents.

For a Non-Domiciled CLP or CDL, if the SAVE final response does not confirm the I-94 or I-94A category of H-2A, H-2B, or E-2, the Division must not issue (including duplicates), transfer, renew, or upgrade a Non-Domicile CLP or CDL, a required downgrade must be initiated for the CLP/CDL privileges only.

Commercial Driver License Renewal (CDL) Fees

A fee is required for each renewal application when a CDL knowledge test is required.
