

You are here: Driver & Event Management > Credential Issuance > Credential Duplicate

Credential Duplicate

There is a Credential Duplicate Service in MAX, however it is recommended you use the Credential Issuance service instead and select Duplicate as the Action. The process documented below demonstrates the Credential Issuance service being used to issue the duplicate.

A Credential Duplicate is a replacement for a Driver License (DL), Instruction Permit (IP), Identification License (ID) or Commercial Driver License (CDL) and may be issued at any time, with proper identification; as long as the license is valid and has no open withdrawal actions. This service is also used when the customer needs a [12 Year Photo Update](#).

A Duplicate Credential may be issued for:

- Lost, stolen, mutilated
- Change of address
- Name change
- New photo
- Restriction that may need to be removed (non-commercial)

A Duplicate Credential shall retain the same:

- Class
 - Unless the customer is changing their credential from a Class G to a Class D
- Endorsement(s), when already present on the license
- Expiration date

Customers that have both Non Travel and an Arizona Travel credential are required to have both credentials updated at the time of renewing or applying for a duplicate license and are required to pay for all applicable fees associated with the issuance of both credentials. This will ensure the issue dates and photos are the same on both credentials.

Duplicate credentials may be requested through:

- An MVD Office or Authorized Third Party Provider
- By mail

- Online at AZ MVD Now (limited to duplicate with no changes and no One Time Mailing Address)

A customer who is required to register as a sex offender, or a customer who needs a 12 Year Photo Update, must apply in person and have a new photo taken.

Required Information or Documentation

The following are required when requesting a Duplicate Credential:

- [Travel License/Identification Application, form #40-5122](#)
- Identity must be proven and credential must be valid
 - The photo on file may be used as proof of identity
- **"Not for Federal Identification"** will be printed on the face of the non-TID credential
- A new photo must be taken following the Digital Image Standards
- The Social Security Number is not required, unless a name change is requested
- A male applicant (under the age of 26 years) will consent to be registered with the US Selective Service System
- Additional documents for name changes
- Alien Registration number not required for a duplicate

The Legal Guardian Certificate is waived when the minor applicant is applying for a ID, duplicate DL or IP, or reinstatement of a DL or IP, per policy [3.3.5 Licensing Variations Specific to Minors](#).

- The certificate is required for a IP renewal

Duplicate Credential Fees

Credential	Fee	Information
Instruction Permit	\$2.00	Legal Guardian Affidavit is not required
Identification	\$12.00 Travel or Non-Travel	For Non-Travel ID only No Fee for recipient of Social Security Income (SSI) (with proper documentation, or Characteristic) or 65 years of age or older
Driver License	\$12.00 Travel or Non-Travel	Social Security Numbers is not required, unless requesting a name change, but the credential must be valid

No Fee Credential Issuance:

Fees may be waived when the customer states they have not received the credential, and it has been more than 10 days and less than 90 days from the credential print date and the address has not been changed from the original application date.

View policy [3.3.6 License and Identification Fees](#) for more information on credential fees.

Prior to the issuing of a no-fee, review the customer's record and original application to determine whether the fee may be waived.

- Authorized Third Parties, see your upline approver prior to issuing a **No Fee**
- MVD CSRs will document the reason for the No-Fee and scan to the customer record

Name Changes

If a customer has a name change, view the [Name Change](#) topic for more information on required documentation. You will also use the Credential Issuance service.
