Credential Endorsements

Endorsements allow applicants to operate certain specialized types of vehicles. Credential Endorsements are indications on a customer's driver license credential that they are legally qualified and permitted to drive specific vehicle types within their Class. Driver Licenses (DL) are issued by "Class": G for graduated, D for operator, M for motorcycle, and A, B, or C for commercial. If the Class M license is combined with any other class of license, it will be added as an endorsement the current license.

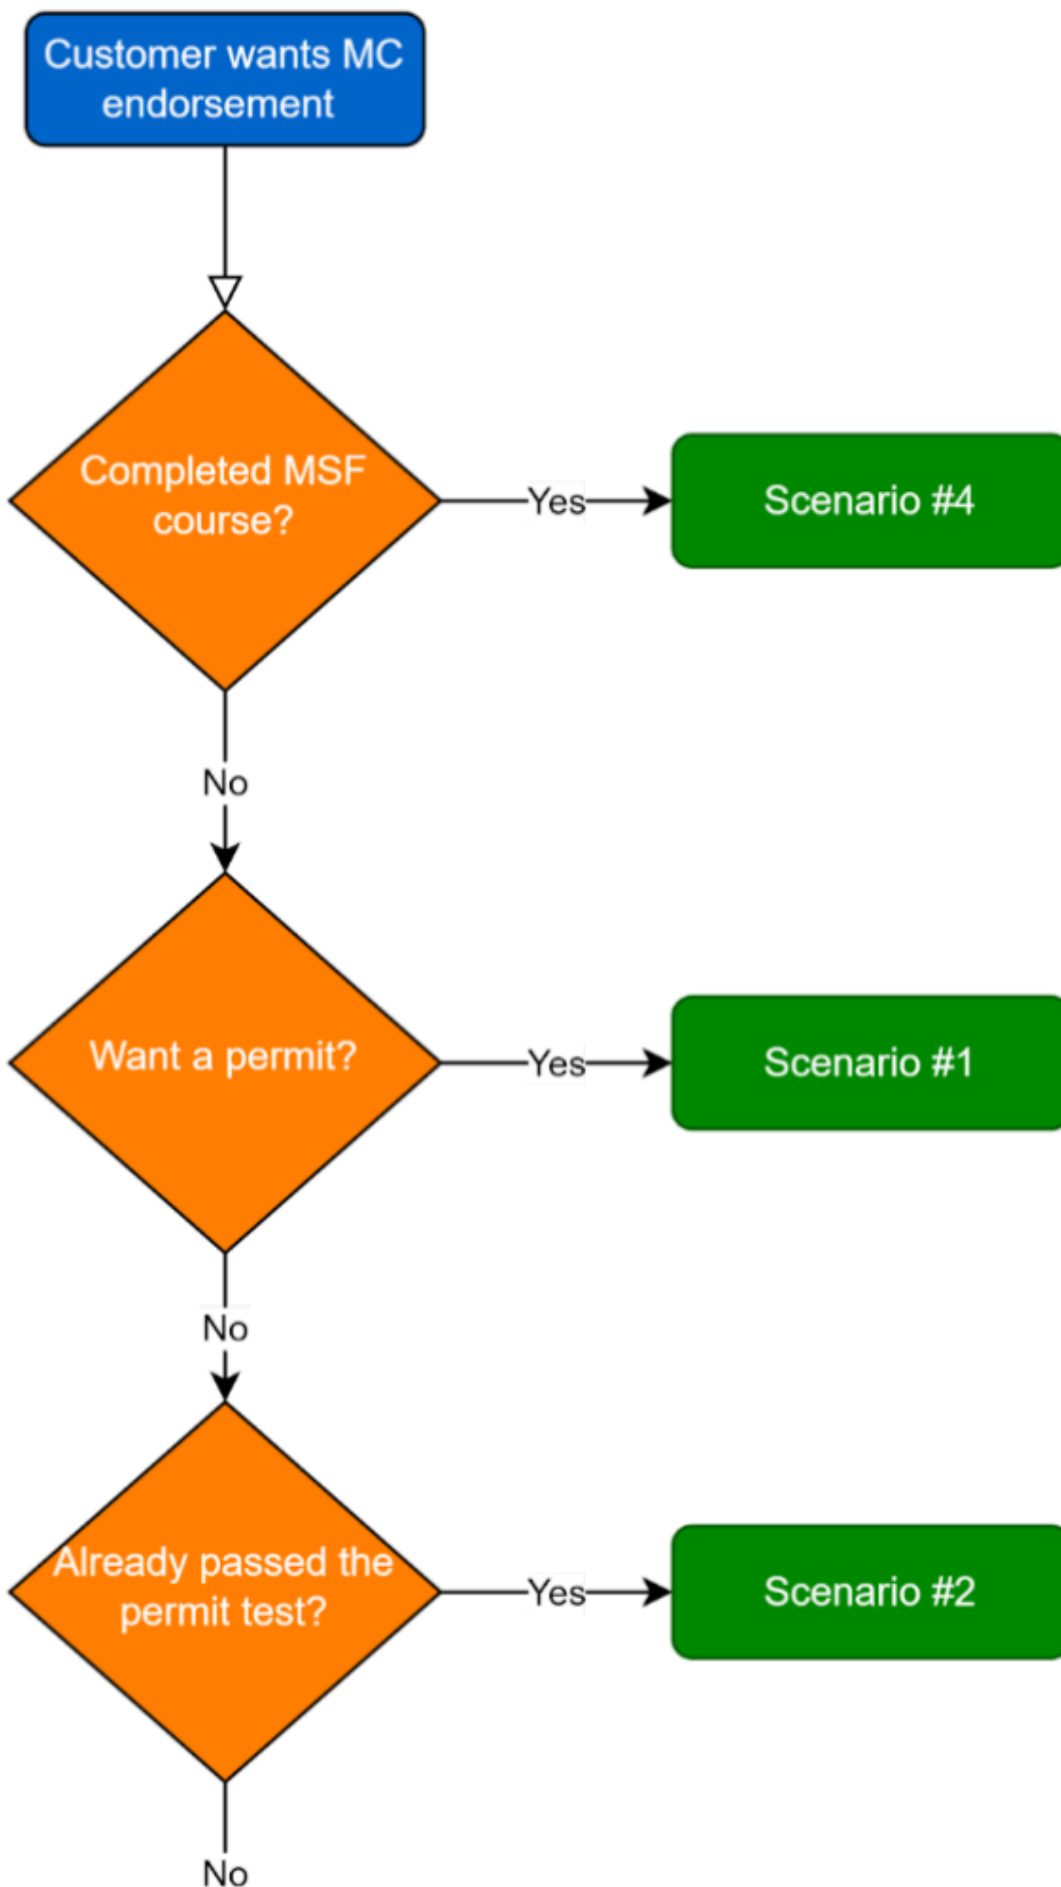

For commercial [Class A, B, or C licenses](#), endorsements indicate the types of vehicles the customer may drive. View the [Commercial Driver Endorsements](#) topic for more information on commercial endorsements.
