

Credential Types

No person may be licensed by more than one state at any one time. The person should be licensed in the state where he or she spends most of their time. If a customer divides his or her time in more than one state, they must choose one state when applying for and obtaining a DL and / or IP.

The exception is Arizona allows the customer to have an ID card in more than one state.

- This does not apply to Travel Identification cards
- It is the customer's responsibility to know if the other state allows for an ID in more than one state
