Department of Corrections Released Offender Identification or Affidavit of Identification

A Released Offender Identification Card or Affidavit of Identification issued by the Arizona Department of Corrections (ADC) may be accepted as proof of authorized presence if:

- The card contains a photo of the customer
 - The Released Offender Identification card must display a digitized photo image and specific identification information
 - The Citizen field must have the abbreviations "U. S." and will not be accepted if left blank or contain any abbreviations

Upon the issuance of a credential the card or affidavit will be returned to the customer with any documentation presented. The CSR will not punch a hole punch on any portion of the card or affidavit.

A Released Offender Identification card that displays an "SO" indicator signifies a customer who is required by law to register as a sex offender.

Released Offender & Authorized Presence

The Arizona Released Offender Card is used to provide proof of identity. In MAX, the card is not an option when adding Authorized Presence. For now, use the U.S. Birth Certificate option until MAX is programmed with the proper option.
