

You are here: Driver & Event Management > Credential Issuance > Extension, Temporary, or Restricted Credentials

Extension, Temporary, or Restricted Credentials

These types of credentials are eligible for a specific time frame and issued due to issues with the driving record, or when a customer is out-of-state at the time of the DL expiration date.

The expiration date is adjusted by a CSR and in some cases may require approval.

- To keep track of the issued credentials, an expiration adjustment reason must be selected by the CSR to keep track of the type of temporary credential issued
- Out-of-State (OOS) Six Month Extensions and Hardship Licenses are managed by the Driver License Central Production Unit and require an override, or approval, to complete the service
- Fees for temporary credentials may need to be manually adjusted
