Testing consists of 25 questions, of which 20 questions must be answered correctly. A score of 80% or higher is needed to successfully pass.

All knowledge test results related to the credential issuance process must be entered into MAX where they will be associated to the customer record to satisfy the requirements for those services when they are started.

A Class M IP is valid for seven months (unless authorized presence requires a shorter period of time) and no more than two Class M IPs may be issued to the same person within a 24 month period.
