Motorcycle Skill Test

The Division administers ALMOST, which incorporates testing methods and standards developed by Motorcycle Safety Foundation (MSF). View [Motorcycle Skill Test Examiner Training](#) in the MVD One Source New Hire Training website for more information on what is required to become a certified motorcycle skill test examiner.

View the [Non Commercial Skills Test](#) topic for more information on:

- Requirements Prior to Issuance
- Vehicle or Medical Restrictions While Driving
 - Additional restrictions specific to motorcycles: restrictions may be imposed with respect to areas, locations, highways within this state, or the time of day or night the customer will be permitted to operate a motor vehicle. Medical or disability restrictions must be noted on a license application after the skills test has been completed. Restrictions must be entered on the Customer Record

View the [Motorcycle Knowledge Test](#) topic for more information on:

- Types of Tests Required for a Credential
- Satisfying Motorcycle Knowledge Testing

View the [Credential Endorsements](#) topic for more information on endorsements.

Fees paid by the customer are valid until the original credential has been issued, after testing has been completed.

Test results that are from the Division are valid for life and do not expire.

- ▶ **Protective Gear for Motorcycle Skills Test**
- ▶ **Alternative Motorcycle Operator Skill Test (ALMOST)**
- ▶ **Special Motorcycle Skill Test (SMST)**

When the customer performs the driving examination with a motorcycle, motor driven cycle, or moped with a maximum piston displacement of 100cc or less; the Division shall restrict the license to the operation of a motorcycle, motor driven cycle, or moped with a maximum piston displacement of 100cc or less, view the [Driver License Operational Restrictions Chart](#). Accordingly, when a customer presents a MSF card that reads '100cc<' stamped in red, a restriction must be added to the customer's driving record.

When the customer successfully completes the ALMOST or SMST using a three-wheel motorcycle or a motorcycle with a sidecar or ATV (three or four wheel), the processor shall place a 'Three Wheel Cycle' restriction on the driver license and customer record.

The 'Three Wheel Cycle' restriction may be removed when a customer successfully completes the ALMOST or SMST using a two-wheeled motorcycle or by removing the M endorsement.
