Photo First Work Around

Photo First is an MVD policy requiring an updated photo for all customers requesting new, duplicate, or renewal credentials. MAX requires a new photo be taken and restricts your ability to complete a credential service until a new photo is in place. However, since MAX is still in development, and we do not have access to cameras to take pictures, we have created this temporary workaround that allows us to upload a portrait photo and a signature image from your local computer.

This work around is only needed while MAX is under development. When MAX goes live, Photo First requirements will be satisfied using a camera in the office.

- ▶ **Download Images**
- ▶ **Start the Service and Launch the Simulator**
- ▶ **Upload the Images in the Launch Simulator**
- ▶ **Check Images and Continue with Service**
