Compliance Fees

Compliance Fees is a service in MAX that allows the CSR to quickly identify any outstanding compliance payments due for a customer, and collect payment for those fees without first reviewing the [Driver Record](#) or [Compliance Management](#).

It is recommended to always review the Driver Record for a customer first before completing the **Compliance Fees** service to ensure all compliance requirements are met, beyond the fees due.

Whether starting from the **Compliance Fees** service, or **Compliance Management** in the Driver Record, you will end up in the same service for collecting the payment of the Compliance Fees.

- ▶ **Completing the Compliance Fees service**
- ▶ **No Compliance Fee Requirements Found**
