Event Management Overview

In MAX, Event Management is the term we use for the process of managing **Incidents**, **Withdrawals**, and **Compliance**.

- **Incidents** are things that may impact a driver's privileges or a vehicle's status, such as DUIs, failure to comply with insurance requirements, etc.
- **Withdrawals** are the impacts to a driver's privilege or a vehicle's status as a result of the Incident. This includes stops, cancellations, suspensions, revocations, or disqualifications.
- **Compliance** is the action(s) the customer must take to complete a withdrawal, such as paying a fee, providing documentation, or waiting a period of time.
