Traffic Violations

Citations

A citation is a law enforcement action (e.g., running a red , speeding, failure to stop, etc.). If the citation is not recorded, the CSR will enter the citation manually into MAX. This may prevent the customer from going under suspension. Other actions a citation may affect are:

- Cause points on the driving record resulting in a suspension
- Waive the points
- Void (set aside) the suspension
- Initiate a Traffic Survival School Assignment

Only court abstracts with a final disposition code and final disposition date may be entered by a CSR. A court abstract will have:

- The customer's name, address, license number, violation codes and the results of the court hearing (disposition codes)
- A court abstract can be a separate document from the court or the original citation with a judge or clerks signature. **It does not need a court seal**

Any other document, such as a receipt without a signature, must be sent back to the court for a court abstract. A copy of the court abstract is kept with the CSR's daily work.

Court Abstracts

A Court Abstract is a legal document issued by the courts to report fact and findings and will include most of the information from the citation. A customer must provide a court abstract when it is necessary to add or update a violation on their record.
