

You are here: Customer > Biometric Authentication Tools - On-Demand Authentication

Biometric Authentication Tools - On-Demand Authentication

The On-Demand Authentication service located in the **Management** menu has two functions:

1. **On-Demand Authentication (ODA)** - the ability to send a link to a customer to have them authenticate on their device with facial recognition
2. **Digital Identity Biometric** - the ability to view the results of biometric authentication attempts for fraud prevention purposes

The Sources that feed into this utility include:

- Apple mDL
- Google mDL
- ETitle Transfer Kiosks
- Enhanced Authentication through AZ MVD Now and eAZ
- On-Demand Authentication

On-Demand Authentication

On-Demand Authentication (ODA) is only available in the following Business Units:

- Call Center
- Field Office of the Future (OOF) BUs
- MVM
- Special Projects IT
- Level 2 Support
- LECU
- OIG Enforcement
- Mandatory Insurance (MVD Support)
- Ignition Interlock (MVD Support)
- Driver Improvement
- MVD Records

Below is a quick video demonstration of the On-Demand Authentication function in MAX.
