

You are here: Driver & Event Management > Credential Issuance > Credential Print Status Search

Credential Print Status Search

This service is available to:

- Check the print status on a **specific** credential when needed

By viewing the Folio Summary, you can:

- Verify if the customer is receiving a 'plastic' credential (not paper)
- Verify which address the credential was to be delivered

View ID allows you to:

- View the actual credential image that will be mailed to the customer
 - This feature will not be available if the customer has a Restricted Record or an OOP/IAH Characteristic

Print Statuses

(Print) Status	What it means
New	Initial credential issuance has taken place, and the folio has been sent to Facial Recognition for review.
Pending	Awaiting results of facial recognition review. This happens almost instantaneously, you will likely not see a folio in this status.
Requested	Credential folio has been set to a Requested status and will be sent to vendor for printing.
Submitted	Credential folio has been submitted to vendor for processing. This does not mean that the credential has been mailed.

Completed	Credential folio processing has been completed with no validation errors and credential has been shipped. A copy of the front and back of the credential is saved in the Credential Print Status Search (for credentials processed on or after March 1, 2023) or OnBase (for credentials processed prior to March 1, 2023).
Stopped	Credential folio has been stopped for OIG review. If the photo didn't pass facial recognition it will be set to this status for fraud review by OIG.

Canceled	Credential folio has been canceled and will not print. If a CSR needs to request a credential print be canceled they need to contact their lead, supervisor or manager who will change the status to Canceled.
Failed	Credential print failed. The driver team will review all credentials with a Failed status and fix errors, which will automatically change the status to back to New.
Aborted	There were some issues with the photo as it was being reviewed by our photo recognition services.

Re-Mailed	The credential was returned to the vendor and re-mailed to the customer. The credential will be destroyed by the vendor if returned after a second attempt of delivery. Credentials with this status will be updated to read as Completed after 30 days.
Destroyed	The credential was destroyed after the second unsuccessful delivery attempt.

Print Status Results										
Status	DL Number	Transaction ID	Service	Plastic Credential	Pull Indicator	Pull Description	Requested By	Status Date/Time	Issue Date/Time	Action
Submitted			Credential Issuance	Yes	None	None		02/27/23, 5:06 PM	02/26/23, 6:41 PM	 
Completed			Credential Duplicate	Yes	None	None		08/06/21, 8:10 PM	08/04/21, 1:41 PM
