Fraudulent Documents or Identity

Fraud Investigations

CSRs will not process any DL and/or Title & Registration service when the customer's identity or documentation presented appears to be fraudulent. The Office of the Inspector General (OIG) is the investigative section of the ADOT Enforcement and Compliance Division (ECD). They perform the following functions:

- Conduct case investigations and audits designed to prevent and deter fraud, abuse, and misconduct within ADOT programs
- Evaluate the effectiveness and adequacy of ADOT program safeguards and concerns
- Advise and make recommendations to, the Governor's Office and the Director of ADOT and ECD, on ways to strengthen and improve program procedures and operations
- Coordinate with law enforcement agencies on case investigations and enforcement actions
- Provide criminal investigative follow-up including investigations related to the transportation industry

ADOT follows some federal and state statute and regulations. The agency or prescribing authority are listed in [Workplace Posters](#).

Fraudulent Documents

Fraudulent Documents are any documents (e.g., driver license, title, registration, or any documents to prove identity or process a transaction) that does not appear to be legitimate (e.g., document's security features distorted, missing, obliterated, or altered).

Fraudulent Identity

Fraudulent Identity is if an applicant presents any identity documentation that appears to be **valid**, but you suspect the person presenting the documentation is not the **person** the documentation belongs to.

Other Fraudulent Identity Issues with Credentials

Facial Recognition

ADOT has advance capabilities with facial recognition software to fight identity theft in the state. The technology has the ability to, examine the driver license photo, identify key features on the individual's face, and compare those features to photos in the Division database.

If there is a match in the system, the software may be picking up an error in the record, fraudulent activity, or in some cases twin siblings.

Deceased or Reported Deceased

When a customer applies for any type of license and a response returns with '**DECEASED**' or '**REPORTED DECEASED**' the CSR will:

- Not disclose to the customer of the 'deceased status'
- Photo copy all documentation before any further discussion with the customer
- Inform the customer that their information is being forwarded to another department for review and after five business days, they will need to contact OIG by phone to schedule an appointment
- Send the original and all supporting documents to OIG

View the [Contact Information for OIG](#) section for address and phone number.

How to Handle a Fraudulent Situation

A CSR **will never attempt to physically detain a person** when either fraudulent documents or identity is presented.

Before explaining anything to the customer, you will excuse yourself from your customer and take **ALL** documentation that the customer has presented.

1. *Gather* all the **documentation** and *scan* all **documents (colored, if possible)** to your email.
 - **Exceptions:** T&R Application (Single), Bond Affidavit, Travel License/Identification Application, or any other pre-filled Division form
 - Any original Division form will be kept and **not** returned to the customer
2. *Inform* the **applicant** that before any service can be completed it will be necessary to send the photocopies of the documentation to another department for review and verification of the information.
 - For possible identity fraud, you will actually need to *issue* a **credential**; DO NOT print the temp credential
 - **Collect fees** and **Cancel Print (Folio)** ([Credential Print Status Queue](#))
3. *Advise* the **customer** they can contact OIG by phone after five business days to schedule an appointment.
4. After applicant has left, *properly complete* an [Incident Report, form #46-4411](#)
 - View the [Incident Reports](#) topic posted in the [Office Standard Work](#) section of MVD One Source for more information on how to properly complete the report
5. *Email* the **completed report** to OIG at fraud@azdot.gov with all copies (from **Step 1**).
 - Only mail the report to OIG if you have original documentation
 - View the [Incident Reports](#) topic posted in the [Office Standard Work](#) section of MVD One Source for more information on how to preparing email to OIG
6. If the customer is suspected of fraud (documents or identity) for a credential:
 - **Add notes** (view the [Notes Management](#) topic) to the customer record: 'Do not issue anything - refer to OIG'

Make a copy of the report and any supporting documentation (including any licenses) and place it in the designated file.

Service Type	Fraudulent Documents or Identity	Can anything be issued?
T&R	Documents	No
T&R	Identity	No
Credential	Documents	No

Credential	Identity	Yes, issue temporary credential. Do NOT issue to customer; forward to OIG. Collect fees from customer for credential. Inform customer of an issue with issuing the credential to the customer and complete the steps listed in the How to Handle a Fraudulent Situation section, which includes the Cancel Print (Folio). View the Credential Print Status Queue > Cancel Print (Folio) section
------------	----------	--

Contact Information for OIG

Email: fraud@azdot.gov

Phone Number: (602) 712-6291

Address (only if original documents available):

*Arizona Department of Transportation
Office of the Inspector General (OIG)
Attn: Duty Office
Mail Drop 514M
Phoenix, Arizona 85014*

Authorized Third Parties must forward the documentation to the Third Party Administration (TPA), who will then follow the proper procedures.
