

*You are here: Documents and Scanning > Verification of Signatures*

## Verification of Signatures

When verifying or witnessing a signature by a notary public, CSR, licensed Arizona dealerships, or title service companies, it must meet minimum state requirements, rules and regulations.

A notary public may acknowledge signatures on forms used by the Division. The notary's commission must be in effect at the time of notarization in order to be considered valid.

An individual may appear in person and have their signature acknowledged by a CSR for no fee. The CSR's acknowledgment of the individual's signature may not be valid in another state or country.
