Window Tinting

A person required for medical reasons to be shielded from the direct rays of the sun may receive an exemption from the window tinting requirements.

The exemption is granted to either a vehicle owner or an individual who is a habitual passenger in a vehicle.

Pursuant to A.R.S. § 28-959.01, a substance or material in conjunction with a glazing material that has a light transmission of 33% plus or minus 3% and a luminous reflectance of 35% plus or minus 3% may be applied to front side wing vents and rear windows.

To apply for the Certificate of Exemption, the applicant must submit an [Application For Window Tint Medical Exemption, form # 40-1511](#), which is certified by a Doctor of Medicine (MD), Doctor of Osteopathic Medicine (DO), Naturopathic Medical Doctor (NMD), or Ophthalmologist.

Medical Review will examine the documentation and either approve or deny the customer's request. This process could take Medical Review anywhere from 4 to 6 weeks to approve. If approved, Medical Review will add the Light Sensitivity Window Tint characteristic on the customer's record, scan the Certificate of Exemption to the customer's documents, and mail the Certificate of Exemption to the driver to keep in his vehicle.

- The letter and characteristic do not prevent the driver from getting pulled over; it is only to show the officer when pulled over

Application For Window Tint Medical Exemption, form # 40-1511 is for front side and rear windows only. If driver is requesting a windshield tint then they would need to obtain a letter from a physician the specifically states windshield tint requested. Medical Review will send them a separate notice for the windshield tint.

► Sending the Window Tint Medical Exemption Application to Medical Review
