

You are here: [MotorCarrier](#) > Create IFTA Account

Create IFTA Account

When a customer wants an IFTA account opened, the carrier must submit the proper documentation.

Vehicles are IFTA Qualified

If the customer is not applying for an IFTA but the vehicle(s) is IFTA qualified, proof of IFTA is required, such as a [IFTA Lease Agreement Certificate, form #70-0901](#).

IFTA qualifying vehicles are vehicles:

- That have two axles and a registered gross vehicle weight rating (GVWR) of 26,001 lbs. or more; OR
- That have three or more axles regardless of weight; OR
- Those that are used in combination, when the weight of such combination exceeds a GVWR of 26,001 lbs.

Forms Required for IFTA

- [IFTA/IRP Application, form #70-0508](#)
- [IFTA Bond, form #96-0224](#) (plus proper POA) or [IFTA Cash Bond, form #96-046](#) if the carrier requires a bond
- Proof of Established Place of Business. View the [Motor Carrier Basics](#) topic > [Established Place of Business](#) section for details on acceptable proof
- \$10.00 filing fee (regardless of the number of vehicles in the fleet)
- Proof of current registration for any IFTA qualified vehicles that are not on the carriers apportioned IRP fleet
 - Note: If the carrier is obtaining IRP apportioned registration at the same time as opening an IFTA account, the carrier does not need to provide proof of registration (the cab card they will receive when they complete registration will service as proof)

View the [Motor Carrier Basics](#) topic > [Established Place of Business/Proof of Residence](#) section for more information on established place of business requirements.

New IFTA Accounts

When a carrier requests to open an IFTA and an IRP account, you must open the IRP account before opening the IFTA account. Most of the information will be acquired from the IFTA/IRP Application, FRP Apportioned Registration Application, or vehicle documentation.
