MVD Offices: Quality Check Process

Status Chart

This chart shows the Status flow of transactions being Quality Checked (QC) within the Quality Check Queue and the Error Resolution Queue (Disputes tab) between the QA unit and MVD offices.

Status	When Status Updates	What Status Indicates
New	System automatically places the 'New' status on randomly selected transactions in the Quality Check Queue.	Indicates that a transaction needs to be quality checked.
QA In Progress	QA CSR selects a 'New' transaction from the Queue and the Status updates to 'QA In Progress.'	Indicates the transaction is now in the process of begin quality checked by the QA unit.
QA Complete - Errors	QA CSR has submitted the Quality Check Form with at least one error.	Indicates the transaction will display in the Error Queue ready for the MVD office to review.
MVD Review	MVD CSR selects 'QA Complete - Errors' transaction from the Queue and the Status updates to 'MVD Review.'	Indicates the MVD CSR is reviewing the error.
Ready for QA Review	The MVD CSR has reviewed the error and wants to dispute it with QA unit.	Indicates the MVD CSR disputed an error.

Status	When Status Updates	What Status Indicates
2nd Review In Process	QA CSR selects a 'Ready for QA Review' transaction from the Queue and the Status updates to '2nd Review In Process.'	Indicates the MVD CSR has reviewed the error and wants to dispute it.
Done	The error was voided or deemed valid by the QA unit.	Indicates no errors were found by the QA unit during the QC process or that MVD acknowledged all errors (no disputes) or that the dispute has been voided or determined valid.
