Vehicle Snapshot - Accommodative Data

At the point the legacy system (TPX) is no longer available for reference, the data has been uploaded into Accommodative Data services located in MAX for reference. There are 4 different data resources that have been made available:

- Mobile Home Snapshot
- Plate Credit
- Vehicle Snapshot
- Customer Details (see [Customer Details - Accommodative Data](#) for more specific details on this resource)

Each of these historical data resources work similarly. All data is a snapshot of the customer or vehicle as of April 20, 2020, when MAX went live.
