Add Insurance

When a customer obtains insurance for themselves or a vehicle they own, the insurance company electronically submits coverage details to Arizona Insurance Verification System (AZIVS) at arizonaivs.com. MAX interfaces with that company to confirm insurance coverage. In special circumstances where customer has proof of insurance but the information has not yet been submitted electronically, certain insurance policies can be added manually in MAX during a registration service (e.g., update registration, renew registration, etc.). When added manually do NOT enter an expiration date, an error will populate if you do (this does not apply to Military Vehicle Insurance).

- MAX requires insurance companies to submit liability and binder insurance information electronically
 - A CSR may manually enter a collectible or military insurance policy on the vehicle information page or during a registration service, view the [Search Insurance - Vehicle](#) section for more information on how to verify insurance that was submitted electronically

****** It is not recommended by the Division to add insurance policies manually but there are special circumstances that may require a manual entry for example Military Vehicle Insurance.

If insurance is manually added in MAX and it's not confirmed with AZIVS within 30 days, an incident for a mandatory insurance requirement will be created and a notification will be sent to the customer. If they do not provide the necessary proof of insurance within the defined period, a withdrawal is created and their registration will be suspended.

There are several types of insurance. Some are associated to a vehicle, others, like an SR22 is associated to a customer. This also means you will view, add, edit insurance in the respective area where the insurance is associated.

Insurance Associated to Vehicle (available in Vehicle Information page)	Insurance Associated to a Customer (available in Customer Record)
Binder Policy	Certificate of Deposit
Collectible Vehicle Insurance	Fleet Policy
Commercial Insurance	SR22
Liability	Self Insurance
Military Insurance	

MAX will only allow a CSR to add military, collectible, and commercial insurance.

For vehicles that have a 'Financial responsibility - no insurance' withdrawal, the insurance company MUST submit the insurance electronically.
