

You are here: Title & Registration Services > Motor Carrier > Apportioned Registration

Apportioned Registration

The Division may provide for an apportioned registration, which allows commercial vehicles operating on an interstate basis in two or more International Registration Plan (IRP) member jurisdiction(s). Under the IRP agreement, the Division is authorized to:

- Collect registration fees based on the percentage of fleet miles operated in various member jurisdictions requested by the applicant
- Transmit the registration fees remitted by the applicant to the member jurisdictions requested by the applicant
- Issue a license plate and registration card (cab card) per vehicle that provides for payment of vehicle registration fees based on the total mileage operated in all jurisdictions the fleet vehicle is given apportioned registration

Apportioned Registration, refer applicant to the Motor Carrier Unit at mvdmc@azdot.gov or 602-712-6775.

► Example of Cab Card

Titles and IRP Apportioned Registrations

The following are three different scenarios involving IRP Apportioned Registrations and how you will process in MAX:

For each of the below scenarios, the rules regarding documentation are the same as a regular non-apportioned title and/or or registration service.

- **Scenario #1: Customer has an IRP apportioned registration in another state, but needs the vehicle titled in Arizona:**
- **Scenario #2: The customer has an apportioned registration in Arizona (ARO) and wants to transfer the vehicles title to Arizona from another state:**
- **Scenario #3: The customer currently has an Arizona IRP Apportioned Registration Only (ARO) but wants to move the title to Arizona:**
- **Scenario #4: The customer has an apportioned registration, but wants to make it a regular registration (and get unused fees refunded):**
