## Oversize and Overweight Permits

The Class A oversize or overweight permits are issued for vehicle and load combinations that are within specific size and weight limits. The load must be non-reducible.

The Class A permit is issued for a single trip or 30 days. Class A permits are issued only for travel on state routes.

The following eligibility criteria must be met before issuing a Class A permit:

- Is non-reducible
- Has a specifically described load
- Has a width and/or load is 14 feet or fewer
- Has a height and/or load is 16 feet or fewer
- Has a length and/or load is 120 feet or fewer
- Has a combined weight of vehicle and/or vehicle combination is 250,000 lbs. or fewer

This permit may not be used to routinely transport legal loads on over-width trailers.

A vehicle must be currently registered for 80,000 lbs.
