Cancel Disability Placard (Permanent or Temporary)

When a placard was issued in error (e.g., Temporary was issued and should have been Permanent), the Cancel Disability Placard service will be used.

If a customer comes in with a placard that needs to be canceled, the placard should be destroyed. The placard record in MAX will remain. When a customer is deceased, the information is automatically updated to the MAX customer record from the Arizona Department of Health Services (ADHS) and will automatically cancel the placard.

The steps listed below will work for canceling either type of placard, as they function the same way in MAX.

1. From the Services menu, *select* **Cancel Temporary Placard** or **Cancel Permanent Placard**, depending on the type of placard you need to cancel.
2. *Search* for the **Customer** related to this service.
