Bonded Title

Bond title procedures are required when:

- An applicant cannot prove ownership of the vehicle or trailer **OR**
- The Division is not satisfied that there are no unpaid lien(s), as a condition of issuing a title
- An Arizona resident purchases an out-of-state repossessed vehicle. See [Reasons to Complete a Bond Title](#) section for additional information

The Division will require the customer to file a surety bond at the time of final application.

The bond process protects prior or future owner(s) and/or lienholder(s). This procedure will require an applicant to go through several steps before the title process can be completed.

The CSR will need to complete a [Bond Title Application - Vehicle, form #40-1001](#) for the customer, which helps the applicant to understand exactly what is required for a bond title.

View the [Mobile Home Bonded Title](#) topic for the differences on a mobile home bonded title process.

For inspection appointments for mobile homes, the customer will need to email InspectionProgram@azdot.gov
