Credit Estimate

This was formerly referred to as a Plate Credit.

The **Credit Estimate** service is a simple inquiry regarding how much credit may be available.

The **Request Registration Credit** service processes the refund of paid fees and taxes to the customer.

Credit Estimate allows the CSR to determine if the customer vehicle is eligible for a Registration Credit, and will display the potential credit/refund the customer may receive when a registration is canceled or a registered vehicle is sold.

You will not be able to run this Credit Estimate for a vehicle that is not currently registered to the customer.

This is an estimate for the customer. The customer must specifically request a [Registration Credit](#) on AZ MVD Now, or with a CSR in an MVD Office. If the customer does not request the Registration Credit, the credit balance will decrease monthly until there is a zero balance.
