Export Only

Foreign country motor vehicle dealers typically buy their vehicles from wholesale motor vehicle auction dealers. Wholesale motor vehicle auction dealers do not buy, sell, own, or have any interest in the motor vehicles that are being auctioned. They provide auction services solely in wholesale transactions to motor vehicle dealers licensed by this state or any other jurisdictions.

An Arizona 'Export Only' title means that the vehicle is purchased by a foreign motor vehicle dealer because most of the time vehicles are considered inoperable, cannot pass emissions and are considered non-sellable in the US market. The vehicle may or should then be exported to a foreign country for resale. The foreign country motor vehicle dealer cannot sell a vehicle(s) in Arizona unless they are licensed by the State of Arizona to do so.

When the wholesale motor vehicle auction dealer sells a vehicle to the foreign country motor vehicle dealer, the auction will stamp the title 'Export Only' and ensure the seller and buyer complete the reassignment portion on the back of the title with the foreign country motor vehicle dealer listed as the buyer. And if the wholesale motor vehicle auction dealer is an ATP, they will place a Sold Notice on the Vehicle Information Page.

View the [Sold Notice](#) topic > Adding a Sold Notice for an Export Vehicle section for more information.

Vehicles returning to the US with titles stamped 'Export Only' will be required to have a Level II/III inspection to determine if the vehicle is roadworthy.
