Fee Exemptions

An exemption releases qualified owner(s) of a vehicle from paying Vehicle License Tax (VLT), Registration fees, and commercial vehicle fees.

- The owner may be granted a full or partial exemption, depending on the type of exemption and the number of titled owners who qualify for the exemption
- When the vehicle is in the name of a lessor, the lessor is not included in determining the number of owners
 - If the lessee qualifies for a VLT exemption, the exemption characteristic should only go on the lessee's record not the lessor's
- When a vehicle is in the name of the trust, no exemption applies
 - If a trustee, or another qualified owner is on the title, an exemption may be applied

All reduced VLT rates must be applied at the time of initial registration or registration renewal.

Refunds will not be given unless it has been determined the VLT has been overpaid due to error. View [Refund Eligibility Scenarios](#) to determine if the customer qualifies for a refund due to an exemption.

Re-certification proof is not required when a lifetime exemption characteristic is already on the customer record.

There are different kinds of exemptions for which a customer can qualify. Each exemption requires the applicant to have specific documentation as proof of eligibility.

Approval from the upline approver is not required. A VLT Exemptions Report will be reviewed to confirm the correct documents were received.

Characteristics on the Customer Record help to trigger Fee Exemptions within a Registration service, but not all Exemptions require a Characteristic.

View the [Characteristics](#) topic for more information on Characteristics, or how to add or edit them, if needed.

Types of Exemptions

There are four categories of exemptions:

1. Military/ Public Health
2. Non-Profit / Religious / School
3. Owner Qualifier
4. Vehicle Qualifier

- ▶ **Military/ Public Health**
- ▶ **Non-Profit / Religious / School**
- ▶ **Owner Qualifier**
- ▶ **Vehicle Qualifier**
