Fleet Management

What is a Fleet?

Fleet Registration is a convenient way for owners of many vehicles to maintain the vehicle registrations on those vehicles. As an alternative to maintaining individual registrations that expire at different times of the year, anyone owning two or more vehicles is eligible for a permanent fleet registration account. The registration for all vehicles in the permanent fleet account will have the same expiration date. Payment for permanent fleet registration fees are required annually.

Vehicles in a fleet are each issued a 'PERM FLT' tab and a one time registration that shows 'FLEET' as the expiration date since the registration itself is not permanent . There is no need to locate a specific vehicle to place the corresponding tab on the plate.
