

You are here: Title & Registration Services > Brands > Manage Liens and Brands

Manage Liens and Brands

Manage Liens and Brands should be used for the following situations:

- Customer is retaining ownership of a vehicle, but they need to add a lien or release a lien.
 - Generally you should only release a lien when lienholder is an individual.
 - If the lienholder is an organization (ELT), a CSR should only release if the customer has the lien release documentation and they can demonstrate they have taken every reasonable action to get the lienholder to release the lien electronically, per policy [8.4.2 Lien Clearance Requirements](#) > Lien Clearance Exceptions section.
- To add a brand outside of a title service (salvage, flood damaged, dismantled), so a new (e.g., restored salvage/reconstructed) can be recorded.
 - When some brands are added (e.g., Salvage) and the vehicle has a lien, the lien must be released prior to adding the brand. The Manage Liens & Brands service will NOT stop when a lien is on there, YOU must be aware of proper procedure.
- To add a one-time mailing address (if the customer has released a lien or updated a brand and wants the title sent to a one time mailing address).

Any changes to Brands will produce a new title number and notify NMVTIS electronically of the changes.

When using the service and a lien exists, certain brands cannot be added. If a certain brand exists, a lien cannot be placed on the record.

Lien Exists; Brands Not Allowed	Brand Exists; Lien Not Allowed
Salvage	Salvage
Stolen/Dismantle	Stolen
Non-Repairable	Non- Repairable
Flood	Flood
Damaged	Damaged
