Ownership Priority, Role Types, & Legal Statuses

Ownership Priority

When there is more than one owner associated to a vehicle, ownership priority must be assigned, as it determines which owner is listed first on the vehicle title. When the priority is changed, MAX will automatically adjust all other owners.

Ownership Priority may be tied in with the Role Type and Legal Status, view the sections below for specifics.

Role Type & Legal Status

Role Type and Legal Statuses are linked together. The Role Type indicates what type of ownership the customer has over the vehicle. Legal Status indicates who has the legal authority to sign ownership documents.

Depending on which Role Type is selected will indicate whether a Legal Status will be required. For instance, when the vehicle is under a Lessee/Lessor situation, no Legal Status is required; however, for owners there are three possible Legal Statuses to choose from.

► Types of Roles

Legal Statuses

The Legal Status is the binding of two or more persons, companies, entities, or the combination of a person or persons and a company sharing ownership of a vehicle or trailer. The status can also be applied to a lienholder.

Legal Statuses will **only be used** for 'Owner' and 'Trustee' Role Types.

Each Legal Status indicates who has the legal authority to sign ownership documents for/when:

- Ownership is changing
- Title transfers
- Original titles
- Lienholders
- Registration credit

A Legal Status between multiple owners determines which owner has first claim to any available Registration Credit. View the [Registration Credit](#) topic > [Registration Credit](#) section for more information.

When transferring ownership **into** the new owners' name with the any of the below legal statues requires **ALL** owners to sign the T&R Application or Title Summary page.

The Legal Status may be changed for \$4.00 Title fee and the vehicle does not have to be currently registered. When the record displays a lien, permission from the lienholder is required.

Adding Additional Owners

1. To add an owner *click* the **Add Customer** button on the Owners tab of any registration related service.
 2. **Role Type:** Use this field to select the ownership role this customer holds (e.g. owner, lessee, lessor, registrant, etc.). If you have more than one owner, each may have a different **Role Type**.
 3. **Priority:** Priority indicates the order owners names will be listed on Title documents. Depending on the Role Type selected, you may or may not change the Priority.
 4. **Legal Status:** If there is more than one owner, the legal status will define if they are an **or**, **and/or** or **and** status. Depending on the Role Type selected (e.g. Lessee/Lessor), Legal Status will not be an option.
 5. **Registration and Title Mail Stars:** If there is more than one owner, these stars will be solid blue for the owner who will receive the title or registration documents, plates, renewal notifications, etc. *Click* the empty star to indicate who should receive the Title or the Registration.
 6. **Notes:** If notes are needed and are associate to this service, they are added here.
 7. **Add an Exemption:** Use this feature to add an exemption specific to this owner (e.g. Non-Resident Military, Tribal Member, etc.). View [Fee Exemptions](#) for more information on how to add an exemption.
 8. **Remove Ownership Icon:** Use this to remove the owner from the service. Please note that this is instant and cannot be undone. If you remove an owner by mistake you will need to add a customer.
 9. **Edit Customer:** Use if the customer's address, AKA, characteristics or contact information needs to be updated. View the [Title & Registration](#) topic > [Edit Customer](#) section for more information.

Until we are fully paperless, when you finish the T & R service for the customer, you will print out the Title Summary (artifact), have the customer review and sign, and re-scan into MAX. This will replace the process where you print the T&R Application for the customer to sign.
