Sold Notice

What is a Sold Notice?

It is an action taken by a vehicle owner to notify the Division that a vehicle or mobile home is sold. The owner should submit this notice within 10 calendar days after sale of the vehicle. This notice is protection for the vehicle owner from liability of tickets, accidents, etc. that may occur after the sale. A Sold Notice is NOT a transfer of ownership.

How a Sold Notice is Submitted

A Sold Notice may be submitted with the Division, mail or via AZ MVD Now.

A Sold Notice can be written:

- On a plain piece of paper, which is acceptable provided all required information is present and the seller has signed it
- On a [Sold Notice, form #46-8502](#)

A Sold Notice may be added to the vehicle record when told verbally by the customer without completing the form.

MAX will generate a Sold Notice 'receipt' to the customer's record.

A completed Sold Notice will include:

- VIN or Plate Number
- Year of vehicle
- Make of vehicle
- Buyer's name and address, if known
- Date the vehicle was sold
- Seller's signature

For an owner with a vehicle with an IRP Apportioned Registration who is looking to get fees refunded, DO NOT add a Sold Notice in an attempt to make the fees available for refund. Refer them to the Motor Carrier Unit. When the vehicle is deleted from the IRP Fleet they will be given the option for the refund of AZ fees or getting an account credit to be utilized toward a future IRP registration (all fees).
