

You are here: Title & Registration Services > Title and Registration

Title and Registration

The person establishes ownership when they purchase the vehicle, then shows the documentation to the Division to prove ownership. During a Title and Registration service, ownership of the vehicle is recorded. The Arizona vehicle title record and/or title is a recording of ownership.

Registration is required to operate a vehicle on public roads, and it indicates the customer has paid required fees. As part of the registration process the customer will receive a license plate, a registration document and tab to place on the plate. View the [Title Document Overview](#) topic for more specific information on the physical documents.

MAX How To Video Series: Title and Registration

When additional documentation (e.g., POA, trust, court document, etc.) is used to give authority to an individual, those documents must be scanned with other supporting documentation.

Verify the signature with the submitted documentation (POA, trust paperwork, court document, etc.).

If the vehicle being titled and/or registered is an recreational vehicle and an OHV decal is requested, the OHV Education Course may be required.

For additional information, see OHV Education Course.

Late Title Transfer Penalty Fees

The PEN fees are assessed when a title service is not completed in the allotted time period as required per Arizona State Law. View the [Fees \(T and R\) Overview](#) topic > [Late Title Transfer Penalty Fees \(PEN\)](#) section for more information on the PEN fees.

Issuing a Title and Registration

Advise the customer the title from this service will be 'electronic' and viewable in AZ MVD Now > Title Viewer.

They will get an Arizona Title Summary at the end of this service, but not a title printed on secure title paper.

If there is no lien on the vehicle and they would like a printed title, you will have to finalize this service and then do a **Print Title** service. That title will be printed centrally and mailed to the customer.

If processing a T&R service and Print Title service on the **same day**, the Title Application or the Arizona Title Summary, will only need to be printed, signed, and scanned once for the T&R service. The day after, or later, will require the Title Application or Arizona Title Summary to be printed, signed, and scanned.

The instructions below assume the vehicle and the customer records are already in MAX. Before getting started, use the search engine to look for the vehicle and for the customer. If not found, add the [vehicle](#) and/or the [customer](#) to MAX before you start the Title & Registration Service.

If the Customer Record is Restricted or Redacted, MAX will NOT stop you from completing the Title & Registration Service. If you proceed without first calling to have the Restriction lifted, all service artifacts will print with redacted address information.
