Assign State VIN

An Arizona Serial Number (AZ SNO), or AZ Number, is issued to homemade trailers (and other specially constructed or reconstructed vehicles) when there is no VIN, or when the assigned AZ Number, manufacturer's serial number or other identifying numbers have been altered, removed, obliterated, defaced, or omitted.

The Arizona Serial Number (SNO) decals will stay in offices (not central issuance).

Arizona Serial Number (AZ SNO or AZ Number)

The Arizona Serial Number:

- Is a self-adhesive, serial, or identification decal
- Consists of the characters **AZ** followed by six numerals and a control number

- Becomes the VIN for the vehicle OR trailer and on all paperwork used for future vehicle services
- Cost is \$5.00

The \$5.00 fee* will need to be collected after the service is completed using the [Miscellaneous Purchase](#) service and *selecting* **State Assigned VIN Fee**.

*ONLY for homemade vehicles/trailers, this does not include VINs with less than 17 characters using the State Assigned VIN Type.

When an AZ Serial Number is assigned, a [Special Serial Number Application, form #48-5108](#) must be completed. The application:

- Is filled out by the **customer** and must make a statement as to how they built the trailer
- Is completed and signed by the inspector (at time of inspection) **OR**
- Is completed and signed by the CSR (when the inspector did not complete the application)

When an AZ Serial Number is required to be affixed to a vehicle or trailer, always make sure the vehicle or trailer is still at the office **PRIOR** to processing the service.

The vehicle or trailer will need to be added to MAX during the subsequent Title & Registration service. View the [Add a Vehicle](#), or [Title and Registration](#) services for more information.

► **Completing the Special Serial Number Application**

Affixing the AZ Serial Number

Homemade Vehicles or Trailers

A CSR certified in inspections may affix the decal, as only a Level I Inspection is required.

Manufactured Vehicles, Trailers , or Mobile Homes

Vehicles, trailers, or mobile homes that had a manufacturer's serial/ID number, or an other identifying number that has been altered, removed, obliterated, defaced, or omitted, will have an Enforcement (ECD) Officer affix the decal, as a Level II/III Inspection is required.

The customer never attaches the decal to the vehicle or trailer.
