

You are here: [Title & Registration Services](#) > [Vehicle Management](#) > [Searching for a Vehicle](#)

Searching for a Vehicle

Search for a vehicle using the Quick Search field at the top of the MAX navigation bar. You can search by:

- VIN
- Short VIN (6 digits)
- Plate number
- Registration Number
- Title

The Quick Search automatically applies an **Exact Match** function to Plates, full VIN and Title. If wanting to search for a partial plate number, use **Advanced Search** to remove the **Exact Match** function.

See [Advanced Search - Other](#) for additional search options related to vehicles:

- Plates
- Permit
- VIN
- Title
- Registration

1. Change the search type to **Vehicle**.
2. Type the **vehicle's unique identifier**.
3. Click **Search** or press **Enter** on the keyboard.

If the unique identifier relates to only one vehicle (e.g. a complete VIN or Exact Match on a Plate), the Vehicle Information page opens immediately. If it does not open immediately, go to **Step 4**.

If your search criteria is too broad, you may get the warning "Too many records found, enter additional data to narrow the search". Refine your search (e.g. using full VIN instead of short VIN) or consider using **Advanced Search**.
